# Deed of Gift for Papers and Other Materials

**Deed of Gift for Papers and Other Materials**

1. I, _____ (hereinafter referred to as the "Donor"), have accumulated records (in hard copy and digital and/or electronic format), including but not limited to notebooks, newspaper clippings, correspondence, audiovisual, photographs, and other materials (hereinafter will be collectively referred to as the "Materials") documenting the Donor's personal life or career, which I currently desire to donate as set forth below and some of which I may designate to be donated in the future.

2. **If Donor wishes to retain copyright claims:** Donor hereby gives, donates, and conveys to the Super Serious University Archives and Special Collections (hereinafter referred to as the "Donee"). Title to the Materials will pass to the Donee upon the execution of this Deed of Gift; however, the Donor will retain copyright to the Materials as specified in this Deed of Gift.

2a. **If Donor wishes to relinquish copyright claims:** Donor does hereby appoint and surrender to the Donee, its successors and assigns, the complete right, title, and interest in and to the copyright of the Materials and any resignations and associated copyright purposes, as well as any extensions and renewals in and to all works founded on, derived from, or including the Materials. This incorporates all earnings (royalties, damages, income, payments, and claims) now or in the future due or payable in connection with the Materials.

3. In exchange for the Donee's dedication to preserve, catalog, and render the Materials available for scholarly research, Donor hereby grants to the Donee an irrevocable and perpetual, royalty-free, and global nonexclusive license to reproduce, circulate, exhibit, adapt, and otherwise use the Materials, and hereby consents to the use of the Materials for non-commercial research and non-commercial educational purposes, effective immediately upon the execution of this Deed of Gift. The Materials may not be used commercially without the prior written consent from the Donor or the Donor's designated representative and Donee.

5. The Donor also agrees to allow the Donee to reformat or to digitize all or part of the donated materials for preservation or use on the archives' website. The SSUASC may dispose of materials deemed redundant to the purposes of the Special Collections Department at its discretion, unless the Donor specifies that unwanted materials be returned, as described below:

6. Description of Materials: *Attach additional sheets as necessary*
